4+	22+	90–100
YEARS EXPERIENCE	PRODUCTION APPS DELIVERED	LIGHTHOUSE SCORES

Full-Stack Developer with 4+ years of experience building scalable, high-performance web applications for Nepali and international clients. Specialized in React, Next.js, TypeScript, NestJS, and PostgreSQL with strong experience in full product lifecycle including development, deployment, and optimization. Proven track record of delivering production-grade applications, improving performance (Lighthouse 90–100), and contributing to code quality through reviews and collaboration.

SKILLS

Frontend	Next.js, React.js, TypeScript, Tailwind, SASS, CSS, Web Animation, Three.js, GSAP
Backend	Node.js, NestJS, Express, Koa.js, REST APIs, WebSockets, Swagger
Database & ORM	PostgreSQL, MySQL, MongoDB, Prisma
CMS & Headless	Strapi, Directus
DevOps & Tools	Docker, Git, CI/CD, Jira
AI & Automation	OpenAI API, MCP, n8n

KEY ACHIEVEMENTS

- Delivered 22+ production-grade web applications for international and Nepali clients
- Improved application performance with Lighthouse scores consistently above 90+
- Led frontend architecture and UI decisions in multiple commercial projects
- Conducted code reviews and contributed to maintaining high code quality standards
- Built and deployed full-stack systems with CI/CD and Docker-based workflows

EXPERIENCE

Full Stack Developer
May 2026 – Present

Dobaato Info Tech
Kathmandu

- Built full-stack applications using Next.js, NestJS, and PostgreSQL, contributing to system design.
- Integrated AI-powered features using LLMs and third-party APIs for business automation.

Full Stack Developer
Sep 2022 – May 2026

Ottr Technology
Kathmandu

- Contributed as a developer and code reviewer across 16+ client projects, building scalable full-stack web applications using Next.js, React.js, NestJS, and PostgreSQL.

- Conducted code reviews to maintain code quality, consistency, and adherence to best practices across the team.
- Developed responsive, high-performance user interfaces, with delivered projects achieving Lighthouse performance scores of 90+.
- Collaborated with cross-functional teams to deliver and deploy production-ready software solutions for both Nepali and international clients.

Lead Frontend Developer

Sep 2024 – Feb 2025

Astergaze Technologies

Kathmandu

- Part-time Lead Frontend Developer responsible for architecture decisions and mentoring a junior frontend developer.
- Built and delivered the company portfolio and client-facing dashboards using Next.js, React.js, Material UI, and GSAP.
- Implemented smooth animations and dynamic UI components, ensuring performance, quality, and consistency across frontend systems.

PROJECTS

Achieve Treks

achievetreks.com

Built a modern travel and trekking website enabling users to explore packages, itineraries, and travel details. Worked across both frontend and backend, implementing REST APIs and a CMS dashboard for efficient content management. Added localization support for multi-language accessibility and optimized the platform for performance and SEO to improve visibility and user experience. Developed as an Ottr Technology employee.

Invicta Kent Management

invictakentmanagement.co.uk

Developed a complete production-grade management system for a UK-based company, achieving a 100 Lighthouse performance score. The project included full-stack development along with DevOps responsibilities such as CI/CD setup, deployment automation, and server configuration. Focused on scalability, performance, and smooth user experience.

Orgyen Ling

ogl.world

Developed a responsive Next.js application with Directus CMS, featuring GSAP animations, REST API integration, and localization support. Developed as an Ottr Technology employee.

Cuts and Coffee

cutsandcoffee.com.np

Created a dynamic website using Next.js, Three.js, and GSAP, implementing 3D scroll animations, smooth page transitions, and interactive visual effects. Achieved a 90 Lighthouse performance score while delivering a visually rich and engaging user experience. Developed as an Ottr Technology employee.

Biskajatra

biskajatra.com

Developed a visually engaging website for cultural/event presentation, achieving a 93 Lighthouse performance score. Focused heavily on SEO, smooth UI interactions, and responsive design for better engagement. Developed as an Ottr Technology employee.
