Backend
Node.js, NestJS, Express,Koa.js, REST APIs, WebSockets, Swagger

Database & ORM
PostgreSQL, MySQL,MongoDB, Prisma

CMS & Headless
Strapi, Directus

DevOps & Tools
Docker, Git, CI/CD, Jira

AI & Automation
OpenAI API, MCP, n8n

KEY ACHIEVEMENTS

- Delivered 22+ production-grade web applications for international and Nepali clients
- Improved application performance with Lighthouse scores consistently above 90+
- Led frontend architecture and UI decisions in multiple commercial projects
- Conducted code reviews and contributed to maintaining high code quality standards
- Built and deployed full-stack systems with CI/CD and Docker-based workflows

EXPERIENCE

Full Stack Developer Kathmandu

Dobaato Info Tech *May*, 2026 - May, Present

- Built full-stack applications using Next.js, NestJS, and PostgreSQL, contributing to system design..
- Integrated AI-powered features using LLMs and third-party APIs for business automation.

Full Stack Developer Kathmandu

Ottr Technology Sep, 2022 - May, 2026

- Contributed as a developer and code reviewer across 16+ client projects, building scalable full-stack web applications using Next.js, React.js, NestJS, and PostgreSQL.
- Conducted code reviews to maintain code quality, consistency, and adherence to best practices across the team.
- Developed responsive, high-performance user interfaces, with delivered projects achieving Lighthouse performance scores of 90+.
- Collaborated with cross-functional teams to deliver and deploy production-ready software solutions for both Nepali and international clients.

Lead Frontend Developer

Astergaze Technologies Sep, 2024 - Feb, 2025

- Part-time Lead Frontend Developer responsible for architecture decisions and mentoring a junior frontend developer.
- Built and delivered the company portfolio and client-facing dashboards using Next.js, React.js, Material UI, and GSAP.
- Implemented smooth animations and dynamic UI components, ensuring performance, quality, and consistency across frontend systems.

PROJECTS

Achieve Treks

Built a modern travel and trekking website enabling users to explore packages, itineraries, and travel details. Worked across both frontend and backend, implementing REST APIs and a CMS dashboard for efficient content management. Added localization support for multi-language accessibility and optimized the platform for performance and SEO to improve visibility and user experience. Developed as an Ottr Technology employee.
